HISTORICAL SKETCH.

The movement which ended in the establishment of the University of Toronto as the centre of the educational system of the Province of Ontario, originated in the mind of General Simcoe, the first Governor of Upper Canada, who was himself an old student of Merton, the most ancient of Oxford Colleges. He repeatedly expressed his conviction, both before his departure from England, and also during his term of office, that the best interests alike of the Government and of the inhabitants called for the establishment of a University in Upper Canada. It was not, however, during his administration that the project, thus for the first time formulated, took practical shape.

In the year 1797, the initial step in the path of higher education in Upper Canada was taken, when the home Government gave authority to the acting Lieutenant-Governor, the Hon. Peter Russell, to set apart for educational purposes five hundred thousand acres of the waste lands of the Crown; one-half to be applied to the establishment of a University. But the actual foundation of the University was not rendered possible until nearly thirty years later; when permission was obtained to exchange a portion of these unproductive lands for other lands still vested in the Crown, which had begun to acquire value from settlement

under lease. In consequence of this exchange, a revenue was created; and in 1827 a Royal Charter was granted by King George IV. for establishing at or near the town of York—as Toronto was then called—a college, "with the style and privilege of a University," to be called King's College.

But further delay ensued, owing to the attitude towards educational matters of the next Lieutenant-Governor, Sir John Colbourne. Under his influence the Royal Grammar School, then in existence at the capital, was transformed into Upper Canada College; in the belief that the educational necessities of the Province would be sufficiently provided for by such an institution. For twelve years, accordingly, a portion of University work proper was carried on, in conjunction with ordinary school training, by the Upper Canada College. After several changes in the administration of the Province, a Lieutenant-Governor of more advanced ideas in the matter of higher education, Sir Charles Bagot, concurred in the view that the long expected university should be organized; and on the 23rd of April, 1842, the foundation stone of King's College was laid by Sir Charles Bagot himself, in the Queen's Park, on the site occupied by the Parliament Buildings.

Until the new buildings should be ready for occupation, the old Parliament House, vacated by the removal of the seat of government under the Union Act of 1840, was appropriated for the carrying on of lectures and other University functions. Faculties of Arts, Medicine, and Divinity were established; and in 1843, the first matriculation of students took place, and inaugural addresses and lectures were delivered on June 8th and 9th of that year. A portion of the projected buildings in the Queen's Park was soon ready for occupation,—the only portion ever completed

on that site; and thither the professors and students were transferred. A separate school for the Medical Faculty was erected further to the west. This building known in recent times as "Moss Hall" has, in its turn, been removed and the site appropriated for the building of the Biological Department and Museum.

In 1849 an important modification of the existing state of things was effected by an Act of the Legislature of Canada. In accordance with this Act the Faculty of Divinity was abolished, and the name changed from King's College to that of the University of Toronto. The University underwent a further transformation in 1853. The faculties of Law and Medicine were abolished. Under the name of the University of Toronto, the functions of a university, as limited to the determining the courses of study, appointing examiners, holding examinations, and admitting to degrees in Arts, Law and Medicine, were assigned to the Senate as then constituted. To the President and Professors in the Faculty of Arts, were assigned the teaching and the entire discipline and control of the students, with special powers as a distinct corporation, under the name of University College.

The model of the newly organized University was stated to be the University of London. The characteristic features of that University, which had then only recently been established, were its limitation to the function of examination, and its freedom from denominational restrictions. The University of Toronto, while retaining the latter characteristic unimpaired, has been enabled, by the subsequent progress of events, to resume what is indeed the main function of a university—the work of teaching.

During the early years of the University it experienced repeated changes in its local habitation as in other respects.

The faculty and students of King's College were temporarily accommodated in the Parliament House until the erection of the east wing of King's College admitted of the occupation of their own building. From this they were anew transferred to the old Parliament Buildings in 1853, when, by a special Act, the site of King's College was appropriated for the proposed new buildings for the use of the Parliament of Upper and Lower Canada. On the return of the Legislature to Toronto in 1856, the faculty resumed the occupation of the old King's College building, while one formerly in use by the Medical Faculty was being adapted for their occupation. There accordingly the work of the College was carried on, while the new University buildings were planned. This building was begun in 1856, and on October 4th, 1858, the top stone of the main tower being then placed in position by Sir Edmund Head, the Governor-General, an old Oxford professor, the value of whose sympathy and support at this critical period in the history of the University cannot be over-estimated.

For more than thirty years the constitution of the University and of University College remained unchanged. Other collegiate bodies, principally denominational schools of Theology, entered into affiliation with the University; and in deference to their especial requirements, the course of study in Oriental Languages was augmented; but the Faculty of University College continued to do the work of instruction for nearly all the students in Arts who presented themselves for examination. The candidates for examinations and degrees in Medicine were trained by medical schools in affiliation with the University, and in the Faculty of Law the examinations were based merely upon text-books prescribed by the Senate.

In 1887, both University and College were remodelled by the University Federation Act, under the provisions of which the University again possesses teaching faculties in Arts, Medicine and Law. The main object of renewed legislation was to secure a more uniform standard of higher education by the union of the various denominational universities of Ontario with the Provincial University. Since the proclamation of the Act, Victoria University at Cobourg, representing the Methodist body, has entered into federation with the University of Toronto. The governing body of this institution is now represented on the Senate of the University of Toronto ; its graduates elect representatives to the same body, and by the removal of the faculty and students of Victoria University to Toronto, where college buildings are now in process of erection in the Queen's Park, the union of the two Universities has been effected.

Under the Federation Act, the theological colleges also, formerly in affiliation with the University of Toronto, have become federating colleges, and enjoy increased representation on the Senate.

The professoriate in scientific and historical departments has been transferred to the University, and so made equally available to all federating universities and colleges. The Faculty of University College consists of professors and lecturers in Classical Languages and Literature (including lecturers in Ancient History), in Oriental Languages, in English, French and German, and in Moral Philosophy. All other portions of an Arts course are assigned to the Faculty of the University. For the maintenance of certain of the departments of science on the scale demanded by modern methods of research special provision has been made by the erection of new and the enlargement of old buildings.

In the new Biological Building every facility is now provided for practical training in Biology and Physiology; further extensions are in progress for other departments of science; and the advantages of the well equipped Faculty of Arts are now available for the students in the Faculty of Medicine. The result cannot fail to elevate the standard of medical education in Ontario.

Since the passage of the Federation Act, also, a teaching Faculty of Law has been created in the University, consisting of three professors and several honorary lecturers.

The expansion of the University has not been limited to the time-honoured faculties of Arts, Medicine and Law. In 1888 a stimulus was given to the study of scientific methods of farming by the affiliation of the Ontario Agricultural College, and the adoption of a curriculum of study for the degree of Bachelor of the Science of Agriculture. Similarly an examination for the degree of Doctor of Dental Surgery has been instituted, as a consequence of the affiliation of the Royal College of Dental Surgeons of Ontario. The College of Pharmacy has subsequently been admitted to affiliation; and with the extension of the same privileges to the Toronto College of Music, a curriculum of study has been prepared for the degree of Bachelor of Music.

The School of Practical Science was affiliated in 1889. Graduates of the School are specially eligible on certain conditions for the degrees of B.A.Sc. and C.E. in the University.

On February 14th, 1890, the main University building was partly destroyed by fire. In the reconstruction thereby rendered necessary, opportunity has been afforded for important improvements in lighting, heating, and ventilation. Considerable extension has been effected in the numbers, capacity, and adequate equipment of the lecture rooms and

laboratories. The new library is being completed on plans embracing the most recent improvements derived from the experience of leading universities in Germany and the United States.

PRESENT ORGANIZATION.

In treating of the constitution of the University and University College under the latest of the legislative enactments which have modified the Royal Charter, it will be convenient to take up separately the various bodies entrusted with the management of the finances of the University and its internal administration. These are the Crown, the Board of Trustees, the Senate, Convocation, the University Council, and the Council of University College.

I. THE CROWN.

The supreme authority in all matters continues to be the Crown, from whom emanated the Charter that created the University, and by whose bounty the lands destined to support the University were originally provided. Section 4 of the University Federation Act (R. S. O. 1887, c. 130), states this general authority :

"The Lieutenant-Governor shall be the Visitor of the University on behalf of the Crown, and his visitorial powers may be exercised by commission under the Great Seal; and the proceedings of any commission, having been first confirmed by the Lieutenant-Governor, shall be binding on the University and its members, and on all persons whomsoever." A similar section (69) applies to University College.

A more tangible mark of the supremacy of the Crown is supplied by section 5, where it is stated that "the president,

professors, lecturers, teachers, officers and servants of the University shall be appointed by the Lieutenant-Governor, and shall hold office during his pleasure." As in the preceding instance, a similar section (78) makes a like provision in the case of University College.

In the way of direct supervision of the internal management, it is enacted by section 40 that all statutes of the Senate must be approved by the Visitor before they have any binding force whatever; and, as before, a later section (75) imposes the same restriction in the case of statutes of the University College Council.

In another sphere also, the Crown is supreme, viz., in the management of the finances. All the property of the University is vested in the Crown in trust for the purposes of the University and University College, and is to be "managed and administered under the orders of the Lieutenant-Governor in Council, by an officer to be appointed by commission under the Great Seal of this Province, to hold office during pleasure, and to be called the bursar." (R. S. O. 1887, c. 231, s. 7).

II. THE BOARD OF TRUSTEES.

The last section quoted naturally leads to consideration of the second important factor in University administration, the Board of Trustees. By Order-in-Council, dated 16th May, 1878, a Board of Management was created, with general powers as to the management and disposition of the University endowment. The original number of members of the Board was five, viz., the Vice-Chancellor and two members of the Senate elected by that body, the President of University College, and one representative chosen by, but not necessarily a member of, the College Council.

Subsequently the representation from the Senate was increased and the Chancellor constituted an *ex-officio* member. In 1884 an Order-in-Council was passed, by which the name was changed to "Board of Trustees," and the membership constituted as follows: The Chancellor, the Vice-Chancellor, and the President of University College, *ex-officio*; five members elected by, but not necessarily members of, the Senate of the University; and two members elected by, but not necessarily members of, the Council of University College. The functions of the Board remain as before.

III. THE SENATE.

The constitution of the Senate as the supreme authority, under the Crown, in the internal management of the University, has varied from time to time. At present, it consists of three classes of members: (1) *ex-officio* members; (2) appointed, and (3) elected members. Among the former are the Minister of Education, the present and past Chancellors and Vice-Chancellors, and the President of University College, and of each federating University or College. Members are appointed by the Councils of the University and University College, the Law Society of Upper Canada, and by the governing body of each federating or affiliated College or School, subject to certain restrictions in the case of affiliated institutions. The Crown has also the power to appoint nine members of the Senate. The elected members of the Senate are representatives of the graduates in Arts, Medicine, and Law of the University of Toronto and any federating University, and of the High School teachers of the Province. They number at present twenty-five out of a total of sixty-one members of Senate. The body thus composed is subject to change once in three years, when all except the *ex-officio*

members must retire, being eligible, however, for re-appointment or re-election.

The function of the Senate is the general administration of the University. Section 39 of the Federation Act gives it power to make statutes in reference to various particular matters, and "in general for promoting the purposes of the University, and touching all other matters whatsoever regarding the same or the business thereof; or for any purpose for which provision may be required for carrying out this Act according to its intent and spirit, in any case not herein provided for."

With regard to the Chancellor and Vice-Chancellor, although in function the latter is merely the deputy of the former, their election proceeds from totally different bodies. The Chancellor is the representative of the whole body of graduates, while the Vice-Chancellor is the Chairman of the Senate elected from actual members of the Senate on occasion of its inaugural meeting after a triennial election, and ceasing to hold office when the Senate by whom he was elected is dissolved.

IV. Convocation.

Convocation consists of the whole body of graduates of the University, in all faculties. Except indirectly, no part of the management of the University can be exercised by it as a whole. It elects the Chancellor, and, in divisions according to faculty, it elects members of Senate as its representatives in Arts, Medicine and Law. Any question relating to University affairs, may be discussed by it and a vote taken, but the result of such discussion is only communicated to the Senate for action to be taken thereon.

V. THE UNIVERSITY COUNCIL.

This body is composed of a president, who shall also be President of University College, and the professors in the University. Its functions are defined in the R. S. O. chap. 230, ss. 56-58, as follows :

"Such council shall have full authority and entire responsibility of discipline over all students in relation to the lectures and other instruction by the professors, lecturers and other teachers of the University ; and no lecturing or teaching of any kind shall be carried on in the University in the School of Science, by any others except the duly appointed professors and teachers, without the authority of the University Council.

"The University Council shall have entire authority and responsibility for all work carried on by the societies and associations of students of the University, provided always that all such authority and responsibility shall be limited to the conduct of the students in relation to such societies and associations as are organized in connection with the University.

"The University Council shall have authority over all officers and servants of the University, whose services are required in connection with the work of instruction ; and all curators, assistants or servants, engaged in the lecture rooms, laboratories or otherwise, in any department of instruction, shall be under the sole authority of the University Council.

"The laboratory fees to be paid by students or other persons for attending the University, or receiving instruction therein, shall be determined by the Lieutenant-Governor in Council on the report of the University Council."

VI. THE COUNCIL OF UNIVERSITY COLLEGE.

Like the University Council, the Council of University College has control over students of University College, and authority over the servants. It consists of the President and Professors in the College, together with the Dean of Residence. It has larger duties and powers, however, than the University Council, being constituted a corporation with a common seal, and power to hold property, and to sue and be sued as a corporation.

DAILY PRAYERS.

[Morning Prayer daily at 10 a.m., at which all who have no conscientious objections are expected to be present.]

ALMIGHTY GOD, our Heavenly Father, regard us, we humbly pray Thee, with Thy favour, as we now unite in asking Thy guidance and over-ruling care in all the work of this day. We implore Thy Divine blessing on our country, its schools, colleges, and universities. We especially beseech Thee on behalf of this University and all connected with it. Grant to its professors, teachers, and students a sense of their responsibility to Thee in the use of the talents committed to their charge. Make of it a fountain of learning, virtue, and piety, continually enriched with Thy heavenly benediction. May all who go forth from it be enabled by Thy grace to use wisely and rightly the knowledge here acquired; and ever to employ their talents in the cause of righteousness, justice, and truth. Preserve us under every temptation; and let a sense of Thy undeserved mercies inspire us with zeal in Thy service. We ask it for the sake of Thy Son our Saviour, Jesus Christ. Amen.

OUR FATHER, which art in Heaven, Hallowed be Thy Name, Thy kingdom come. Thy will be done in earth, as it is in Heaven. Give us this day our daily bread. Forgive us our trespasses, as we forgive them that trespass against us; and lead us not into temptation; but deliver us from evil. For Thine is the kingdom, the power, and the glory, for ever and ever. Amen.

THE GRACE of our Lord Jesus Christ, and the love of God, and the fellowship of the Holy Ghost, be with us all evermore. Amen.

O LORD GOD, the Fountain of Light and Truth: our Creator, Preserver, and continual Benefactor; to whom we have to render an account for every talent committed to our charge; bless, we beseech Thee, our labours and studies in this University. Let Thy Divine guidance and special favour rest on its professors, teachers and students. Animate all with a spirit of reverence, a love of truth, and a humble dependence on Thee. Teach us so to estimate rightly Thy manifold mercies, that whilst engaged in the discharge of the duties of time, we may ever be mindful of the more important interests of eternity; and that through Thy grace we may so order our thoughts, words, and actions, as to aim not merely at the welfare of ourselves and others, but also at rendering unto Thee a willing and grateful service. Grant this, we humbly pray Thee, for Jesus Christ's sake. Amen.

OUR FATHER, which art in Heaven, Hallowed be Thy Name. Thy kingdom come. Thy will be done in earth, as it is in Heaven. Give us this day our daily bread. Forgive us our trespasses, as we forgive them that trespass against us; and lead us not into temptation; but deliver us from evil. For Thine is the kingdom, the power, and the glory, for ever and ever. Amen.

THE GRACE of our Lord Jesus Christ, and the love of God, and the fellowship of the Holy Ghost, be with us all evermore. Amen.

ALMIGHTY GOD, Father of all mercies, to whose providential goodness we owe the manifold blessing of this life, look down, we pray Thee, with Thy special favour on the professors, teachers, and students of this University. Guide us throughout this day, and in all the coming years. Bless us in the work in which we are now engaged; and aid us by Thy grace, that whilst diligently prosecuting the studies that here claim our attention, we may realize in Thee the fountain of all knowledge, goodness, and truth, Preserve us from error, delusion, and every presumptuous snare; take away all doubt and unbelief; and reveal Thyself to us as the Father of lights, in whom are all the treasures of wisdom and knowledge for time and for eternity. We ask it in the name and for the sake of Thy Son our Saviour, Jesus Christ. Amen.

OUR FATHER, which art in Heaven, Hallowed be Thy Name. Thy kingdom come. Thy will be done in earth, as it is in Heaven. Give us this day our daily bread. Forgive us our trespasses, as we forgive them that trespass against us; and lead us not into temptation; but deliver us from evil. For Thine is the kingdom, the power, and the glory, for ever and ever. Amen.

THE GRACE of our Lord Jesus Christ, and the love of God, and the fellowship of the Holy Ghost, be with us all evermore. Amen.

Faculty of Arts.

ENTRANCE.

Candidates may enter this Faculty by passing the Junior Matriculation examination, (see appendix, p. 1) or the Senior Matriculation examination (First year), or at the examination of the Second year (see page 40).

Candidates for Junior Matriculation must have completed the fifteenth year of their age.

All candidates entering at the Junior Matriculation examination must take the pass subjects in Latin, Mathematics, English, History and Geography, and in one of the following groups: (*a*) Greek; (*b*) French and German; (*c*) French, and either Physics or Chemistry; (*d*) German, and either Physics or Chemistry.

Candidates intending to take, during their University course, any one of the following honor departments, viz.: Political Science, Mathematics and Physics, Chemistry and Mineralogy, Natural Sciences, are recommended to take French and German at Matriculation; since these languages must be taken in connection with the above-named honor departments. For a similar reason candidates intending to take, during their University course, either the honor department of Philosophy or that of Oriental Languages are recommended to take Greek, French and German at Junior Matriculation.

All candidates entering at the Senior Matriculation examination must take the pass subjects in Latin, English, History, Mathematics, either Greek, or French and German, and one of the three sciences—Chemistry, Biology, Geology, specified below under the title of First year. (Note: Hebrew may be substituted for French or German). Candidates who propose taking the honor course in Philosophy are recommended to take French and German as well as Greek, in view of the course for Second year prescribed on p. 46; and candidates who intend taking the honor course in Political Science are recommended to take French and German, either instead of or along with Greek,

in view of the course for Second year prescribed on page 45. Candidates for Senior Matriculation may present themselves either in May—and compete with the undergraduates for honors and scholarships—or at a special examination in September, at which no honors or scholarships are awarded.

An undergraduate in the Faculty of Arts, in any University in Her Majesty's dominions, may enter by being admitted "*ad eundem statum*," on special application to the Senate.

If such application be for admission to the standing of the Third or Fourth year in this University the Senate will, if it sees fit to grant the same, prescribe the subjects of examination in which such applicant shall be required to pass before proceeding to the Degree, having regard to the subjects in which he has already passed satisfactory examinations in his own University.

If such applicant be admitted to a lower standing in this University than he held in his own University, he may not compete for scholarships at the next ensuing examination; but if he obtain honors he shall, at the next succeeding examination, enjoy the same rights and privileges with respect to obligatory subjects, as an original undergraduate of this University who has passed an examination of the same merit.

The ordinary annual examinations for Matriculation (both pass and honor) will commence in the beginning of July, and applications therefor must be sent to the Education Department before June 1st.

Supplemental examinations for Matriculation will be held in the University about the middle of September, at which those who are rejected at the July examination, as well as new candidates, may present themselves; but no honors or scholarships will be awarded at such examinations.

The fee for Matriculation is five dollars, and must be paid when the application for the examination is made.

The special examination for Senior Matriculation, previously referred to, will be held at the same time as these supplemental examinations.

Candidates for entrance must produce satisfactory certificates of age and of good conduct.

The fee for admission "*ad eundem statum*" is six dollars, and must be paid to the Registrar at the time of application.

Until the Senate, by resolution, otherwise determines, the standing of candidates who have passed, or may hereafter pass, the ex-

I.—REGULATIONS RELATING TO ALL UNDERGRADUATES.

Undergaduates proceeding to a Degree are required to be registered either in University College or in a federating University—except in those cases in which the Senate, in consideration of peculiar circumstances, shall dispense with such attendance. All applications for such dispensation must be lodged with the Registrar before January 15th.

Every undergraduate who has not received such dispensation from the Senate for any particular year, must, before being admitted to examination, produce to the Registrar from the Head of the federated College which he has attended during the year, a certificate of attendance and of compliance with the requirements of that College.

Notice of the time of commencement of the undergraduate examinations will be given annually in January.

In Colleges in federation with the University, the Second and Third years' examinations are conducted by their respective professors, or lecturers, conjointly with associate examiners appointed by the Senate ; and such examinations are held at the same time as the examinations in the University.

Students of the Second or Third years of any federating University or College are examined on the subjects of the lectures by the professors or lecturers whose lectures are so attended, conjointly with the University associate examiners. Associate examiners are not appointed in the case of the theological options specified on pages 42 and 47.

Candidates in all the years are required to send to the Registrar of the University, at least three weeks before the commencement of each examination, an application for examination according to a printed form to be obtained from the Registrar, and such application must be accompanied by the fee of five dollars.

II.—REGULATIONS RELATING TO THE PASS COURSE.

The subjects to be taken by those pursuing the pass course, with the options permitted, are set forth in the following schedule :

Undergraduates of any year, who have been rejected, or who have been prevented from attending the annual examinations in May by sickness, domestic affliction, or other causes beyond their control may present themselves for examination in September, at the time of the Senior Matriculation examination. But candidates who have failed to attend at the May examinations, must prove to the satisfaction of the Vice-Chancellor, before presenting themselves in September, the existence and sufficiency of the alleged cause of absence, and all such cases shall be subsequently reported to the Senate.

A candidate for examination of any year in the pass course who has failed in not more than two subjects of the examination, may be allowed to present himself at the next ensuing supplemental examinations in the subject or subjects only in which he has so failed; and a candidate for examination of any year in an honor department, who has failed in not more than one of the pass subjects attached to his honor department, may be allowed to present himself at the next ensuing supplemental examinations in that subject only in which he has so failed. University College.

As explained in the historical introduction, p. 9, University College was created by an Act passed in 1853, by which the determination of all requirements for degrees, appointing examiners, and conferring degrees, was assigned to the University; while the Faculty, embracing all the professors, lecturers, and tutors, in Arts and Science, was constituted a College for instruction in accordance with the requirements of the University, under the name of University College, Toronto.

By the University Federation Act, of 1887, the University functions of instruction have been revived in most branches of study in the Faculty of Arts, and in the Faculties of Law and Medicine; and the professors and lecturers in Arts and Science have, with a few exceptions, been reorganized into a teaching Faculty in the University.

The subjects of Greek and Latin (with Ancient History), English, French, German, Oriental Languages, and Moral Philosophy, have been excepted from those assigned to the University Faculty; and the professors, lecturers, and other instructors in these subjects constitute the Faculty of University College.

University College.....

.....

As your son (or *ward*) purposes coming into Residence in this College, I beg to inform you that it is the desire of the Council that, where there are no conscientious objections, all the students under their charge should be present in the hall at daily morning and evening prayers, with reading of the Scriptures. It is also their wish that they should regularly attend on Sundays their respective places of worship, and receive such other religious instruction as their parents or guardians may desire. I have to request that you will be so good as to let me know whether you desire your son (or *ward*) to attend such daily prayers in the College, and that you will also mention the Minister under whose charge you wish to place him.

The Council will afford every facility for the carrying out of your intentions, and with this view, will exercise such control over your son (or *ward*) during his residence, as may be best calculated to effect your wishes. In the event of your not informing me of your desire on the subject, the Council will assume that you have no objection to his being required to attend the daily prayers of the College, and will exercise an oversight as to his attendance on the ministrations of a clergyman of the denomination to which he belongs.

Victoria University.

Victoria University was founded by resolution of the Conference of the Methodist Church in Canada, held in Kingston, in August 1830. The institution was opened for students on the 18th of June, 1836, with the Rev. Matthew Ritchie, M.A., as Principal. On the 12th of October, 1836, letters patent were issued incorporating the institution as a Seminary of Learning, for the Province of Upper Canada, under the name of "The Upper Canada Academy."

In 1841, the Parliament of the united Provinces of Upper and Lower Canada, being now first constituted by Act of the Imperial Parliament with authority to grant such a Charter, at its first Session held in the city of Kingston, passed an Act to incorporate the Upper Canada Academy under the name and style of "Victoria College, with power and authority to confer the degrees of Bachelor, Master, and Doctor of the various Arts and Faculties;" which Act was assented to by the Governor-General, on the twenty-seventh of August, 1841.

On the twenty-first of October, 1841, the Rev. Egerton Ryerson, having been appointed Principal, opened the first College session under the enlarged charter.

In the year 1844, the Rev. A. McNab, D.D., succeeded the Rev. Dr. Ryerson, as Principal, and occupied the office till 1849. At the close of his term the number of students in the College was 140.

In 1850, the Rev. S. S. Nelles, M.A., was appointed Principal and addressed himself to the task of organizing and enlarging the college to the status and work of a Uni-

versity. In the year 1854-55, the Faculty of Medicine was added and established in Toronto. In 1860, the Faculty of Law was added, and in 1871, the Faculty of Theology.

In the years 1883-84, a commission appointed by the General Conference of the Methodist Church, arranged for the consolidation of Albert College, Belleville, with Victoria College, Cobourg, and legal effect was given to this consolidation by Act of the Legislature of Ontario, 47 Victoria, chap. 93.

The corporate name was, by this Act, changed to "Victoria University." The Government of the University was vested in a Board of Regents, Chancellor, Vice-Chancellor and Senate. To these bodies was given power to affiliate outlying colleges, and full University powers in all Faculties were continued. Rev. S. S. Nelles, D.D., LL.D., as President was *ex officio* first Chancellor, and William Kerr Q.C., LL.D., was elected Vice-Chancellor.

In 1887, the Rev. S. S. Nelles, D.D., LL.D., died, and the Rev. N. Burwash, S.T.D., was appointed President and Chancellor.

Under the provisions of the present charter the following colleges are affiliated in Arts with Victoria University: Albert College, Belleville; the Wesleyan Ladies' College, Hamilton; the Ontario Ladies' College, Whitby; Alma College, St. Thomas.

On the twelfth of November, A.D. 1890, under the provisions of the Revised Statutes of Ontario, chap. 230, and the Acts amending the same, Victoria University was by proclamation of the Lieutenant-Governor federated with the University of Toronto.

By the provisions of the Federation Act, the President of Victoria University, a representative of the Senate of Victoria University, and five representatives of the graduates in

Arts become members of the Senate of the University of Toronto.

Five hundred and seventy-six graduates of Victoria University have been admitted to the standing and privileges of the degree of B.A., two hundred and twenty-five to those of M.A. ; nine hundred and seventeen to those of M.D. ; eighty-six to those of LL.B. ; and twenty-nine to those of LL.D.

On the first of October, 1892, it is expected that the Faculty of Victoria University will occupy their new buildings in the Queen's Park, Toronto, and the federation of the Universities, be practically consummated. § 4.

THE HISTORY OF ENGLISH LAW.

SECOND YEAR. (THIRD YEAR IN FACULTY OF ARTS.)

In tracing the history of the English law an attempt is made to ascertain its condition from the Roman Conquest until the Norman Conquest; to discover if any of the original Celtic or Druidical laws continued in force during the Roman occupation; and to what extent, if at all, the Roman law continued after the Saxon invasions; and what were the laws of the Confessor so much cherished after the Norman Conquest by the conquered race.

The change effected in the law, especially of real property, by the Conqueror and his successors,—the introduction or extension of the feudal system,—the special difference between that system as existing on the continent and in England,—the creation of new tenures,—the great charter and its frequent renewals as showing the condition of the people, and the evils to be remedied.

The great changes effected by the legislation of Edward I and Edward III. The creation of entailed estates,—the long struggle to obtain power to alienate them and its final success. The legislation to restrict alienations in mortmain,—the continuous and skilful means taken to evade the law, and their final defeat. The law giving power to devise lands, and the legislation of Elizabeth to prevent frauds upon creditors and purchasers. The abolition of feudal tenures by Charles II, and the laws of his reign for the prevention of frauds and perjuries—for the distribution of intestates, personal estates—and in favour of liberty by rendering the remedy by *Habeas Corpus* more effective. The efforts in the reign of George III to ameliorate the criminal law, and the English Statutes after 1792 that have their counterpart in our Colonial legislation are discussed and explained.

Books recommended: Reeve's History of English Law; Hale's History of English Law; Blackstone's Commentaries. Consult also a collection of English Statutes, and the Revised Statutes of Canada, and of Ontario.

§ 5.

ROMAN LAW.

The larger number of lectures is devoted to the substance of Roman Law during the reign of Justinian ; embracing a description of the persons and things recognized by the law ; and as to the creation, extinction, and exercise of rights, and to the performance of duties ; as to the rights of ownership, and the qualification of them ; as to the modes of acquiring ownership, and the modes of protecting it. The nature and objects of obligations, the parties to them, and the extinction of obligations by fulfilment or otherwise are discussed. The constitution of the Roman Family is explained, and the laws applicable to its different members, as husband and wife, parents, children, and slaves, are noticed and commented on. The offices of guardians and trustees, and the rights, duties, responsibilities, and liabilities of guardians and trustees are stated and explained.

The rules of succession to an intestate, the selection of an heir in such case by operation of law, and the changes in the law at different periods, ending in the final legislation of Justinian, are stated and explained. The law of testamentary succession, the various kinds of wills, the duties of the heir, the gift of legacies, and the history of trust gifts and codicils are explained.

The remedial processes for the protection and enforcement of rights are traced from the *legis actiones*, the changes effected by the formulary system, the summary jurisdiction of the prætor, the abolition of the formulary system, terminating in the *extraordinaria cognitio*. The system of judicial administration in the time of Justinian, and the progress of a suit in his time are explained.

The series is closed by a discussion of the law as to specific performance of contracts ; of the law as to frauds upon creditors ; and an examination of the influence of Christianity upon Roman legislation.

Books recommended: Muirhead's Historical Introduction to the Private Law of Rome ; Sandars' Justinian ; Institutes of Gaius, translated by Muirhead. The Digest, the Code, and the Novels should also be consulted.

The hospital has now 400 beds, and during the year the number of in.patients under treatment has varied from 250 to 300. During last year about 3,385 patients were admitted, and large numbers of patients daily received treatment in the out-door department.

All the patients in the hospital are, as a rule, suffering from acute medical and surgical diseases ; the chronic cases are generally sent to the Home for Incurables or House of Providence, and the convalescent patients are sent to the new Convalescent Home, recently erected on Wells' Hill.

CLINICAL TEACHING.

Clinical instruction is given in the various departments of the hospital on all classes of patients.

I. *Theatre Lectures :*—Clinical Lectures are given daily, over patients brought from the wards to the large theatre, by the professors of clinical medicine and of clinical surgery to the students of the Third and Fourth years.

II. *Instructions in the Wards :*

(*a*) Medicine and Surgery :—A systematic course of bedside instruction is given to limited classes of students. Arrangements are such that each physician and surgeon or his assistant is in daily attendance for the purpose of imparting instruction at the bedside ; by this means provision is made for continuous daily work in the ward, and students of both Third and Fourth years are required to avail themselves of it.

(*b*) Gynæcology :—Small classes of students receive instruction, in diseases peculiar to women in the pavilion specially devoted to the treatment of such patients. These classes meet twice a week.

(*c*) Obstetrics :—In the Burnside Lying-in-Hospital, in which there are over 150 births a year, final students are permitted to witness and assist in the conduct of *labors*. Students are also allowed to make engagements with out-patients and to attend them in confinements at their own homes.

(*d*) Ophthalmology, otology, laryngology and rhinology :—Diseases of the eye, ear, throat and nose are studied in the wards of the Andrew Mercer Infirmary.

III. *Surgical Operations :*—Surgical operations are performed in the large theatre on Saturday afternoons, or in cases of emergency at any time during the day or night when required. The theatre, which has been recently altered and enlarged, is capable of seating 600 students, and in the completeness of its arrangements is not excelled. The facilities afforded the students situated in all parts of the room for witnessing operations in all their details are unusually good.

IV. *Out-patient Clinics:*—The new addition to the hospital for the accommodation of out-patients affords ample facilities for instruction in the important class of diseases which here pass under observation. A physician and a surgeon are in attendance daily, and instruction is given on the patients. The cases presenting themselves in the special departments of the hospital devoted to disease of the eye, ear, etc., are available in the same manner. There will also be an out-door clinic in gynæcology.

V. *Pathology:*

(*a*) Autopsies:—These are performed at stated hours by the Professor, or the Demonstrator of Pathology. The examinations are conducted in a systematic way, and instruction on the morbid conditions found, is imparted to the students. The bearings of the gross post-mortem appearances on the conditions previously found at the bedside, are carefully investigated, and, when necessary, arrangements are made for further examination, microscopical and chemical.

(*b*) The examination and analysis of the various fluids, excreta and pathological products of patients in the wards, are conducted in the University Hospital laboratory. Students are required to keep systematic records of the results obtained by these examinations.

CLINICAL CLERKS AND SURGICAL DRESSERS.

Clinical clerks and surgical dressers are appointed to act for limited periods. They are required to take complete histories of cases allotted to them, and receive certificates for the same as required by the Ontario Medical Council. Post-mortem clerks are appointed, and are required to make complete reports of all autopsies made in the post-mortem room, which is situated in the hospital grounds. Clinical clerks and surgical dressers are also appointed in the departments of gynæcology, and opthalmology, and otology.

RESIDENT ASSISTANTS IN THE HOSPITAL.

Four resident assistants are appointed annually from the graduates of medicine in the University, and hold their positions for one year. They will have full opportunities for acquiring experience in the general and special wards of the hospital, but during the session they will have charge under the physicians and surgeons in the general wards.

VICTORIA HOSPITAL FOR SICK CHILDREN.

The following members of the Faculty are members of the Hospital staff:—

Physicians.

PROF. A. MCPHEDRAN. PROF. J. M. MACCALLUM.

PROF. J. CAVEN.

This large hospital, with 160 beds, is entirely devoted to diseases of children. In the clinics, cases exemplifying the various diseases of infancy and childhood will be exhibited. Abundant opportunity for a personal examination of all cases will be afforded.

REGULATIONS RELATING

TO THE

EXAMINATIONS AND GRANTING OF DEGREES.

DEGREE OF M.B.

There are two ordinary modes of proceeding to the Degree of M.B., viz., (1) by taking a Pass Course; or (2) by taking an Honor Course.

ENTRANCE.

Candidates for a Degree must pass the Matriculation examination, unless (1) they possess a degree in Arts not being an Honorary Degree, from any Dominion or British University; or (2) have already matriculated in the Faculty of Arts or in the Faculty of Law in this University; or (3) have passed an examination entitling them to be registered as Matriculants in the College of Physicians and Surgeons of Ontario.

Before presenting themselves for examination, candidates must produce satisfactory certificates of good conduct, and of having completed the sixteenth year of their age.

The ordinary annual Matriculation examinations (both pass and honor) will commence in the beginning of July.

Supplemental examinations for Matriculation will be held in the latter part of September, at which those who were rejected at the July examinations, as well as new candidates, may offer themselves; but no honors or scholarships will be awarded at such Supplemental examinations.

The fee for Matriculation is five dollars, and must be paid when the application for the examination is made, according to the regulations issued by the Education Department, under whose superintendence this examination is now conducted. The fee for registration of exemption from the Matriculation examination is five dollars.

Candidates may delay presenting themselves for the Matriculation examination until any time before the Final examination for the degree of M.B.; but no candidate will be allowed to compete for relative standing, prizes, or scholarships, until he has passed the Matriculation examination.

Candidates intending to compete for scholarships are required to notify the Registrar of the University to that effect before June 1st, in addition to the application required to be made as above stated to the Education Department.

No fee will be charged for transferring from the Faculty of Arts to that of Medicine.

For subjects of examination at Junior Matriculation, pass and honor, see Appendix, p. 53.

REGULATIONS RELATING TO UNDERGRADUATES.

Undergraduates are required to attend lectures, and receive practical instruction during each of four years, at any of the Schools of Medicine recognized for this purpose by the University. The certificates of attendance upon lectures must mention the precise number of lectures given in each course, and must certify the attendance of the candidates at two-thirds of these at least. The certificates of practical instruction must certify that the candidate has diligently pursued the studies in question for the whole of the time required, and these must be signed by the teachers in the immediate charge of the laboratories where the instruction was obtained.

Each undergraduate, at the end of each of the four years of his course is required to present himself at the annual examination of that particular year, except in the case of those who elect to take Primary and Final examinations; and those so electing will not be allowed to compete for honors or scholarships.

The annual examinations are styled the First, Second, Third and Fourth examinations, and are to be passed in separate years in the order named. But candidates may, under special circumstances, be allowed to present themselves at the examination for M.B., or at any of the intermediate examinations, without having passed the preceding examination or examinations in the University.

Undergraduates below the standing of the Fourth year, who have been rejected or who have been prevented from attending the annual examinations by sickness, domestic affliction or other causes beyond their control, may present themselves for examination in September at the Supplemental examinations. Candidates of any year who have passed a creditable examination in the majority of the subjects required, may present themselves at the Supplemental examinations next ensuing, in the subjects in which they failed, and upon passing at such examinations shall be allowed their year. Candidates who failed to attend at the annual examinations must prove to the satisfaction of the Vice-Chancellor before presenting themselves in September, the existence and sufficiency of the alleged cause of absence. Candidates who were rejected must pay a fee of ten dollars, and those who did not attend, a fee of five dollars, before offering themselves for the Supplemental examination.

Graduates in Arts of the University may enter at the Second examination, but will be required to take such subjects of the First examination as they have not taken in their Arts course, though in these subjects they shall not be required to take an honor standing. (For list of equivalent examinations see page 165).

Undergraduates who elect to take the Primary and Final examinations, may take the Primary at the end of the Second or Third year, and the Final at the end of the Fourth year of their course. Graduates in Arts who elect to take the Primary and Final examinations may take the Primary at the end of the second year, and the Final at the end of the third year of their course.

No candidate will be allowed to pass any of the examinations who has not obtained at least one-half of the marks allotted to such examination. Nor will a candidate be considered as having passed in any individual subject who has not obtained at least one-third of the marks allotted to such subject.

The fee for each examination is five dollars, payable when the candidate notifies the Registrar of his intention to present himself.

Notice will be given annually, in January, of the days on which the examinations for the year will commence. Every undergraduate who proposes to present himself at an examination must send in to the Registrar a statement (according to a printed form which will be furnished) of the course he is taking, whether pass or honor, and such other particulars as the printed form may indicate, together with the original certificates referred to in this statement.

No scholarship will be awarded to any candidate who has not obtained first class honors in the examination for which it is conferred.

Each scholarship is tenable for one year only, but a scholar of one year is eligible for the scholarship of a succeeding year.

The scholarships or medals are not open to those who are at the same time undergraduates or graduates in Medicine of another University.

THE GEORGE BROWN MEMORIAL SCHOLARSHIP IN MEDICAL SCIENCE.

Dr. A. H. F. Barbour, of Edinburgh, having signified his intention to place a sum of money at the disposal of the University of Toronto, for the purpose of founding a Scholarship in Medical Science in memory of the late Hon. George Brown, the following regulations have been adopted with regard thereto :—

This scholarship shall be called the George Brown Memorial Scholarship in Medical Science, and shall be awarded annually at the convocation for conferring degrees in medicine to the Bachelor of Medicine who shall have distinguished himself most during his undergraduate course in the subjects of anatomy, biology, physiology and pathology.

The award shall be made by a committee composed of the Professors in these subjects, and of the examiners for the time being therein, who shall report as to the successful candidates, after having given due attention to the results of the annual examinations, and to the character of the work done by the candidates in the University laboratories.

The comparative value of the several subjects is to be estimated according to the following schedule :

1st year—	Biology	200
	Anatomy	100
	Physiology	100
2nd year—	Anatomy	200
	Physiology	200
	Histology	100
3rd year—	Pathology	100
4th year—	Pathology	200
	Total	1200

The holder of the scholarship during the year of tenure is required to engage in original research in any one of the laboratories of the University, on some subject bearing on the advancement of medical science—the laboratory providing the material for the investigation.

The scholarship is to be paid in two portions, two-thirds at the time of award and one-third six months later, on the holder giving a satisfactory report (to whomsoever the University may appoint) of the work he has already done.

A report of the research, when completed, is to be given to the University.

The value of the scholarship consists in the proceeds of one thousand pounds sterling, invested at the rate of interest secured by the University for such benefactions.

The scholarship is tenable for one year.

MEDALS, PRIZES, AND CERTIFICATES OF HONOR.

A gold medal and three silver medals are offered annually for competition among those students of the Medical Faculty who have succeeded in obtaining the degree of M.B., with honors, and will be awarded on the recommendation of the examiners.

Certificates of Honor will be given those students, who, at any of the examinations, have been placed in the first or second class in Honors in any Department. The fee for such certificate is one dollar.

STARR MEDALS.

The late Richard Noble Starr, M.D., devised certain property for the encouragement of the study of the subjects of Anatomy, Physiology, and Pathology. In fulfilment of this object, the Senate have established one gold and two silver medals, called the "Starr medals." These medals are awarded annually and are conferred upon the three Bachelors of Medicine who have attained, in the course of their annual professional examinations, the highest marks in the above subjects; the relative rank of each candidate being determined by the aggregate number of his marks in all his examinations, written and practical, pertaining to these, viz :—

The examinations in Anatomy for the First and Second years, and in Surgical Anatomy of the Third year.

The examinations in Physiology, Histology, Physiological Chemistry, and Practical Physiology of the Second year.

The examination in General Pathology and in Morbid Anatomy and Histology of the Third year.

Every recipient of the medal must have attained the standing of First-class in each of the above-mentioned subjects, and must have been classed in honors in the Fourth examination.

In awarding the medals and scholarships, the comparative value of the several subjects is to be estimated according to the following schedule :

Its object is to promote growth in grace and Christian fellowship among its members, and to engage in Christian work by and among students.

Students who are members in good standing of any evangelical church may become active members; others of good moral character may become associate members.

Meetings of a devotional character are held every Saturday evening from 7.30 to 8, throughout the academic year.

This association is actively engaged in missionary work, being united with the University of Toronto (Arts) Y. M. C. A. in the Canadian College Mission. This mission is represented in the foreign field by Dr. R. A. Hardie, of Fusan, Korea, who left Toronto in August, 1890. Those specially interested in mission work meet for discussion of missionary topics, at the close of the regular devotional meetings.

St. Michael's College.

St. Michael's College was established in 1852 by the Basilian Fathers from Annonay, France, at the request and under the patronage of the Most Rev. Dr. De Charbonnel, then Bishop of Toronto. For four years the College occupied the wing of St. Michael's Palace, on Church Street. In 1856, a more suitable edifice was erected on the present site, part of which was the gift of the late Hon. John Elmsley. Since that time the building has been more than doubled, and the chapel enlarged and improved.

The object of the institution is to impart a thorough Catholic training, moral and intellectual, so as to fit young men for any position in life which they may wish to occupy.

The studies advancing steadily with the educational progress of the country, it was deemed advantageous for those studying for the liberal professions to have the College affiliated with the Provincial University. In 1881 this affiliation was affected upon a basis similar to that of several of the Catholic Colleges of England and Ireland with the University of London.

The course of study comprises, besides an Elementary department three others, viz., Commercial, Classical and Philosophical. In the latter department lectures are delivered in the subjects of the department of Philosophy as prescribed by the curriculum of the University of Toronto.

Special lectures are also delivered upon the History required in the curriculum of the University.

Knox College.

Knox College was established at Toronto in 1844, as a theological seminary in connection with the Synod of the Presbyterian Church in Canada or Free Synod, which had been organized in the same year. In 1858 it was incorporated by Act of Parliament. In 1861, in consequence of the Union of the Synod of the Free Church and that of the United Presbyterian Church, as the Synod of the Canada Presbyterian Church, the Theological Institute of the United Presbyterian Synod and Knox College were united.

After many changes of habitation the present buildings on Spadina Avenue were erected in 1875. Wycliffe College.

This federating College was founded 1877, and known at first as the Protestant Episcopal Divinity School. As that name implies, it is a Church of England Theological College, and its work and methods are based upon the position of "distinctive evangelical teaching." It was affiliated with the University in 1885; and upon the passage of the University Federation Act became, in accordance with the terms of that Act, a federating College, with additional representation on the Senate. The present building, completed in 1891, stands to the north-east of the main University building.

The School of Practical Science.

The School of Practical Science was founded by Act of the Legislative Assembly in 1877. An arrangement was entered into with the Council of University College whereby the students of the School received instruction in those University subjects which were included in the work of the School. In 1889, the School was affiliated to the University of Toronto. In 1890, very large additions were made to the original building. The latter was set apart for the work in Chemistry, Mineralogy and Assaying, while the Engineering and Architectural Departments were accommodated in the new building, a large portion of which is occupied by the Engineering Laboratory. This laboratory has been equipped with the most modern machinery and apparatus for carrying on original investigations in steam engineering, hydraulic and electrical engineering, strength of materials of construction, standards of length, etc.

The Department of Chemistry is provided with laboratories for qualitative and quantitative analysis, toxicology, etc.

In the Department of Mining Engineering there are laboratories for assaying, blowpipe analysis, microscopic lithology, etc. For instruction in Surveying and Practical Astronomy the School is supplied with a good collection of the ordinary field instruments—transits, levels, etc,—and also with a ten-inch theodolite for astronomical and geodetic work.

The Departments of instruction are :—

1. Civil Engineering, including Sanitary Engineering.
2. Mechanical and Electrical Engineering.
3. Mining Engineering.

4. Architecture.

5. Analytical and Applied Chemistry.

The instruction given in each of these departments is designed to give the students a thorough knowledge of the scientific principles underlying the practice in the several professions, and also to give them such a training as will make them immediately useful when they enter into active professional work.

Ontario Agricultural College.

The Institution known as the "Ontario Agricultural College and Experimental Farm," is situated about a mile to the south of the city of Guelph, in the centre of an extensive agricultural and noted stock-raising district, readily accessible by rail from all parts of the province. The farm consists of 550 acres, about 400 of which are cleared. It is composed of almost every variety of soil, and hence is well suited for the purpose for which it was selected.

The instruction given at the institution is embraced under two heads, a course of study and a course of apprenticeship. The latter is intended for special students who come in from practical farming for the autumn, winter and spring terms, during which they are employed in rotation in each of six departments of practical farm labour. The course of study is for two years, at the end of which time a diploma is granted. Holders of the diploma, who have obtained a certain standing in the theoretical and practical work of the first two years, may remain for a third year. In 1888 the College was affiliated with the University of Toronto, and an examination for the degree of Bachelor of the Science of Agriculture was instituted, to which only students of the Third year in the Ontario Agricultural College may be admitted.

UNIVERSITY LIBRARY.

On the evening of February 14th, 1890, the Library of the University, together with the greater portion of the main University Building, was destroyed by fire. The Library then contained about 33,000 volumes, including many rare and valuable books and sets of scientific periodicals.

The destruction of the University was no sooner known than active measures were taken to replace what was lost. At a special meeting of Convocation a committee was formed to solicit subscriptions and donations of books from friends of the University and higher education. In England a similar movement was organized, and a committee formed, under the Marquis of Lorne as Chairman, Mr. Staveley Hill, M.P., as Honorary Treasurer, and Sir George Baden-Powell, M.P., as Honorary Secretary. In Germany, also, a committee of learned men, interested in University education, was formed for the same purpose, with Herr John Landauer, of Braunschweig, as Secretary. The appeals sent out met with a prompt and hearty response. Among the many donors may be mentioned Her Majesty the Queen, their Majesties the German Emperor, and the Kings of Saxony and Württemberg, His Royal Highness the Prince of Wales, the late Duke of Devonshire, the Duke of Argyle; the Governments of Great Britain, France, Italy, Sweden, of the Dominion of Canada and its provinces, of the Australian Colonies, of the United States, and many of the States of the Union; the Universities of Oxford, Cambridge, Edinburgh, Aberdeen, Dublin, Strassburg, Vienna, Upsala, Harvard, Columbia, Cornell, Melbourne and Laval; the cities of London, Birmingham, Bremen, Toronto, New York, Boston and Melbourne; the leading publishers of Great Britain, the United States and Germany; learned societies and very many private persons in all parts of the world. The number of books thus presented has exceeded 30,000 volumes. Among them are several of bibliographical interest. The late Duke of Devonshire presented several sets of publications of chemical societies, with the book plates of the Hon. Henry Cavendish, the great chemist. From other friends were received valuable volumes formerly in the libraries of Gibbon, the historian, of Edmund Burke, and of Guizot, the French statesman and historian.

A manuscript of great interest was also presented, being a contemporary report of the trial of the seven Bishops in the reign of James the Second, with corrections and annotations by Sir William Williams, the Solicitor-General of the day.

For the last two years the Library has found a home in the School of Practical Science, by the kindness of the Minister of Education and the Principal of the School. During this time has been in progress the erection of a fire-proof Library building, separate from the restored main building. The books will be moved to this, the permanent quarters of the Library, by the beginning of October, 1892. The distinctive features of the building are the following:—First, a fire-proof room to accommodate 120,000 volumes. Second, a reading-room to accommodate 200 students. Third, seminary rooms for various departments of instruction.

The hours during which the Library is at present available for readers are from 10 a.m. to 5 p.m. daily. A proposal awaits the sanction of the Senate that the reading-room of the new building shall be open, during term, in the evening as well. It is confidently expected that the students will avail themselves of the increased advantages for study thus placed within their reach.

A card catalogue, on what is known as the Dictionary System, is in preparation, and it is hoped will be completed by the end of the ensuing year. Special assistance has been engaged in order to complete this indispensable key to the contents of the Library as soon as possible.

The total number of volumes in the Library up to 1st July, 1892, is 41,510. The unbound pamphlets exceed 5,000.

THE UNIVERSITY BIOLOGICAL MUSEUM.

The University Biological Museum forms the central portion of the buildings belonging to the Biological Department. It is as yet unfurnished, but it is hoped that the rooms will be ready for use early in October. To the new museum will be transferred the various collections rescued from the old museum, together with the specimens and collections recently presented to the University.

In addition to the damage done by removal and by water to the mounted specimens (mammals, birds and skeletons), of the former museum, the most serious losses were in the direction of the collections contained in the gallery cases.

It is hoped that in the near future donations from friends of the Institution will assist in replacing the losses. Already considerable contributions have been received, and it is intended to issue shortly a rough list of the collections with the view of indicating the gaps which exist therein.

Fortunately, the extensive and valuable series of preparations and models used for illustrating the lectures in animal and vegetable morphology and embryology had been removed to the Biological Department before the fire, so that the teaching of the department is not crippled in this respect.

This company was formed during the excitement caused by the *Trent* affair in 1861, which may be said to have given birth to the present volunteer system of Canada. At the news of the possibility of war between Great Britain and the United States, offers of military service came from all parts of the country. Among the companies then formed was one consisting of professors and students of University College. The meeting at which the resolutions for the organization of such a company were passed was held in the Convocation Hall, and presided over by Rev. Dr. McCaul, then President of University College. The first officers chosen were Professor H. H. Croft, as Captain, Professor J. B. Cherriman as Lieutenant and Mr. Adam Crooks (afterwards Minister of Education for Ontario) as Ensign; and among the privates enrolled were Sir Daniel (then Professor) Wilson, now President of the University, Professor Buckland and Mr. W. Mulock, now Vice-Chancellor of the University. The first uniform chosen was light gray, the company being then independent. In the year 1862 the company was incorporated with the 2nd Battalion, Queen's Own Rifles, when the present uniform was adopted.

In the year 1864 the company obtained the first prize, offered by Col. Mountain, Inspecting officer, for the most efficient and complete company in Canada.

When the Fenians invaded Canada in June, 1866, the company sent to the front forty-nine officers and men, of whom, however, only twenty-nine were present at the skirmish which took place at Limeridge on the 2nd of June, the greater portion of the members having left Toronto for their various homes at the close of the examinations in May. They were led into action by the late Lieutenant Whitney, both Professor Croft and Professor Cherriman being

detained in Toronto by order of the Government. They advanced farther towards the enemy than any other portion of the force in action, driving the enemy's left flank before them, and thus being the last to whom the order to retire reached. They lost three killed, four wounded, and three prisoners as shown in the following list :—

Killed.—Privates Malcolm Mackenzie, J. H. Mewburn, William F. Tempest.

Wounded.—Privates W. H. vanderSmissen, R. E. Kingsford, E. G. Patterson, E. T. Paul.

Taken Prisoner.—Corp. T. D. Delamere, Lance-Corp. W. H. Ellis, Private David Junor.

The prisoners not wounded were taken to Fort Erie were they were abandoned on the approach of the troops.

The University company also took part in the suppression of the rebellion in the North-west of 1885. The Queen's Own Rifles formed part of the column dispatched under Lieut.-Col. Otter for the relief of Battleford. A successful engagement with the Indian chief Poundmaker, took place on May 2nd at Cut Knife creek, in which a detachment of K Company took part. On this occasion Private Lloyd was seriously wounded in rescuing a fallen comrade. No other member of the company received any injury.

ISSUES

ALL APPROVED FORMS OF LIFE POLICIES AND ANNUITIES.

THE COMPOUND INVESTMENT PLAN

Combines all the advantages of Insurance and Investment. Under it the Company guarantees after the policy has existed for ten years, if the insured so desires, to loan to him the remaining annual premiums as they mature, thus enabling him to continue the policy in force to the end of the investment period. Should death occur after the tenth year the full face of the policy will be paid, and premium loan (if any) cancelled ; if no loan exists, all premiums paid after the tenth will be returned as a mortuary dividend in addition to the face value of the policy.

THE 7% GUARANTEED INCOME BOND

Provides that at the end of a stated period the insured can draw out his Cash Surplus, have a paid-up policy for the full amount of the bond, and in addition draw an annual income of seven per cent. on the face of the bond so long as he lives.

The Company Offers Unexcelled Advantages to Intending Insurers.

POLICIES ARE INDISPUTABLE AFTER THREE YEARS.

For Agencies and Territory apply to

WILLIAM McCABE, F.I.A.,
Managing Director.

Derangements of the Liver

HORSFORD'S ACID PHOSPHATE

has been used with good effect in diseases of the liver, and biliary disorders, where an acid treatment is indicated, and has especially proved a desirable medium to employ in chronic hepatic affections. By its action it stimulates the liver and promotes an increased flow of bile.

The Acid Phosphate is far superior to the nitro-muriatic acid of the pharmacopœia, in that it serves to assist digestion, and promotes in a marked degree the healthful action of the digestive organs.

Dr. H. P. NELSON, Ashland, Ohio, says: "I have used it in a case of torpor of the liver, and am highly pleased with the results obtained."

Dr. O. G. CILLEY, of Boston, says: "I give it in all cases where there is derangement of the liver, with the most remarkable success. With my patients it has agreed wonderfully."

Dr. E. EVERSHED, Creston, Iowa, says: "I have found it very useful for biliousness. It never fails to give relief in a short time."

Dr. J. F. BARNES, Byron, Miss., says: "I find it an excellent refrigerant in all fevers, and especially in bilious fever, when the stomach is very irritable."

Send for descriptive circular. Physicians who wish to test it will be furnished a bottle on application, without expense, except express charges.
